

BULK MILK COOLERS

Used Model P

THE MUELLER TANK IS EXCLUSIVELY MADE OF AISI 304 QUALITY STAINLESS STEEL (DIN-1.4301) AND COMPLIES WITH THE ISO 5708 STANDARD FOR MILK COOLING TANKS. IN ADDITION, THE TANK IS SUPERBLY MADE (WELDED SEAMLESS) AND POLISHED.

The heavy beam profile and adjustable legs ensure a uniform weight distribution, so that the tank can be placed in almost every bulk milk tank room.

Features P Model:

- Cleaning water level control
- Deep-cool switch
- Automatic cool start
- Digital temperature indication
- Fitted ladder from model P-2100 upwards
- Dipstick
- Calibration card

DIMENSIONS AND CONTENTS

CRS cleaning system (Circulation cleaning)

The circulation cleaning system was developed in the early 1990's. This fully automated cleaning system is mounted on the front side of the O-model.

VRS cleaning system (Quick cleaning)

The cleaning system was further developed into a quick-wash cleaning system at the end of the 1990's. This quick wash or displacement cleaning system has major advantages compared to the circulation cleaning system: **more economical** (about 35% water saving), **faster** (about 50% less cleaning time) and more **environmentally friendly** (less water and electricity consumption).
